

MASER CONSULTING P.A. PROVIDES DONATION TO HELP YOUTH ACHIEVE EAGLE SCOUT STATUS

February 9, 2010 – Red Bank, NJ - Maser Consulting P.A., one of New Jersey, New York and Pennsylvania's leading consulting engineering firms, is pleased to announce that with their donation, they have been instrumental in helping Charley Nelson of Shrewsbury work towards completing the requirements for his Eagle Scout Project. All Eagle Scouts must complete a project through donations; they are not permitted to finance the Project themselves.

Charley, a senior at Red Bank Regional High School, became involved in Scouting in the first grade and has been a member of both Pack and Troop 50 in Shrewsbury since that time. Maser Consulting donated all the groundcover needed to improve the Playground area at the Family Resource Associates in Shrewsbury. Family Resource Associates is an organization which helps children with disabilities to reach their full potential. The value of the material was \$625.

Eagle Scout is the highest rank attainable in the Boy Scouting program of the Boy Scouts of America (BSA). A Scout who attains this rank is called an Eagle Scout or Eagle. The title of Eagle Scout is held for life, thus giving rise to the phrase "Once an Eagle, always an Eagle." Requirements include earning at least 21 merit badges and demonstrating Scout Spirit, service, and leadership. This includes an extensive service project that the Scout plans, organizes, leads, and manages. Charlie has completed these necessary tasks and is awaiting an Eagle Board of Review and receive approval from his Troop Leadership and then both the Monmouth Council of and National Boy Scouts of America will need to approve and verify that he has met the requirements in their entirety. Eagle Scouts are honored at an Eagle Court of Honor where they are presented with an Eagle Neckerchief and Slide, and a badge that visibly recognizes the accomplishments of the Scout. The rank of Eagle Scout must be met prior to the Scouts 18th birthday.

Based in Red Bank, Maser Consulting P.A. has nine offices throughout New Jersey, New York and Pennsylvania, serving both the public and private sector. The firm provides a wide range of services for public works, environmental management, cultural resource services, geotechnical engineering, structural engineering, highway and bridge design, traffic and transportation engineering, civil engineering and site development, surveying, landscape architecture and construction administration.
