

MASER CONSULTING P.A. NEWS

PENNSYLVANIA PROFESSIONALS PARTICIPATE IN MONROE COUNTY PA, CITIZENS AGAINST REGULATORY EXCESS ENVIROMENTAL LEGISLATIVE & TRANSPORTATION ACTION COMMITTEE (C.A.R.E.)

Maser Consulting P.A., one of New Jersey, New York and Pennsylvania's leading engineering firms, is pleased to announce that *Suzanne M. Zitzman, GISP*, Director of Geographic Information Services (GIS) and *C. Richard Roseberry, P.E., P.P., C.M.E., AICP*, Department Manager for Municipal Services, will be part of the newly formed Monroe C.A.R.E. Action Committee.

Ms. Zitzman will be assisting C.A.R.E. with coordinating meetings between the committee and gubernatorial candidates, government officials and state agencies to discuss the Pocono Region issues, and assisting C.A.R.E. with researching means to promote awareness to C.A.R.E. through social networking applications. Ms. Zitzman has over 22 years of extensive GIS/GPS project management, design and mapping experience in the planning and civil engineering fields. Sue leads the firm's Quality Control/Quality Assurance Committee where development of company standard procedures and policies are designed and implemented.

Mr. Roseberry will be assisting C.A.R.E. by providing solutions to expedite PennDOT regulatory requirements in the Pocono Region by meeting with PennDOT officials along with other key members of C.A.R.E., covering land development, environmental and regional agency expertise.

Mr. Roseberry is a Professional Engineer in Pennsylvania, New Jersey, and Delaware with extensive experience with both Private and Public Sector projects. He has diversified experience in various aspects of civil engineering including roadway and utility design, site layout, permitting, transportation planning, wastewater planning, zoning and land use planning, public works, and project and budget management.

The Monroe C.A.R.E. committee's mission is to achieve binding and timely review of Pennsylvania Pocono Region land development permits through collaboration with land development, elected and appointed officials where all recognize the need for balanced growth and accountability to the Constitution and enabling laws of both the United States and the Commonwealth of Pennsylvania. C.A.R.E. will engage the Executive and Legislative Branches of Commonwealth Government to ensure regulatory accountability and streamline the regulatory permitting application process of review and approval that are required for land development initiatives in the Pennsylvania Pocono Region.

Based in Red Bank, Maser Consulting has nine offices throughout New Jersey, New York and Pennsylvania, serving both the public and private sector. The firm provides a wide range of services for site development, public works, surveying, environmental management, geotechnical engineering, structural engineering, highway and bridge design, traffic and transportation engineering, landscape architecture, cultural resources and construction administration.
