Sylvester Land Field – Borough of Roselle Second Place Award Recipient Municipal Parks/Recreation Projects “D” Category

Mt. Arlington, New Jersey – (November 9, 2011) Maser Consulting P.A. and the Borough of Roselle is proud to announce that the Sylvester Land Field Improvement Project has been selected as the Second Place award recipient in the Municipal Parks/Recreation Projects “D” Category by the New Jersey Society of Municipal Engineers.

The award will be presented to the Borough Engineer, Carl P. O’Brien, P.E., P.P., C.M.E., C.P.W.M. of Maser Consulting P.A. on November 16, 2011 by the New Jersey Society of Municipal Engineers’ 2011 annual event in Atlantic City. The recreation complex was designed and construction efforts were managed under the direct supervision of Mr. O’Brien.

The site is named after a former Roselle football player that was the first Borough soldier to fall in the line of duty in Vietnam in 1967. The field was re-dedicated to Sylvester Land after the improvements were concluded. The 3.83 acre tract now includes the football/soccer field, ADA accessible spectator grandstands, baseball/softball field, full-size basketball court, two lane walking paths (approximately 1/4 mile in length) and other passive recreation amenities. In addition to the multi-purpose synthetic turf field, sport field lighting, site fencing, site landscaping and the installation of a future security camera system was constructed.

The site was designed with the idea of ADA accessibility to be prevalent throughout the complex. From the handicap accessible synthetic turf, to the full-size basketball court, to the two lane walking paths to the spectator bleachers with ramping system; the facility is fully accessible to people of all ages and abilities to enjoy.
