

PRINCIPAL ASSOCIATE OF LEADING NJ FIRM RECEIVES ASFPM CERTIFICATION

Red Bank, NJ – January 19, 2010 – Maser Consulting P.A., one of New Jersey, New York and Pennsylvania's leading engineering firms, is pleased to announce that William H.R. White, III, P.E., P.P., C.M.E. has successfully completed the process and examination to become an ASFPM Certified Floodplain Manager (CFM).

The ASFPM – Association of State Flood Plain Managers – grants this certification only to those professionals who meet the requirements and complete a comprehensive examination on the programs and standards to reduce flood losses in the nation.

Mr. White has extensive experience in all aspects of civil engineering with a strong background in hydrology and hydraulics. He has performed analyses of numerous watersheds, floodplains delineations and downstream impact analysis for Public and Private projects within New Jersey and New York. Mr. White is a Professional licensed Engineer in New Jersey, a Professional Planner in New Jersey and a Certified Municipal Engineer. He is a member of the American Society of Civil Engineers, the National Society of Professional Engineer is and the New Jersey Society of Municipal Engineers. He earned a B.S. in Civil Engineering from Rutgers University, College of Engineering. Mr. White is a resident of Oceanport, New Jersey.

Based in Red Bank, Maser Consulting has nine offices throughout New Jersey, New York and Pennsylvania, serving both the public and private sector. The firm provides a wide range of services for site development, public works, surveying, environmental management, geotechnical engineering, structural engineering, highway and bridge design, traffic and transportation engineering, landscape architecture, cultural resources and construction administration.
